

Covered Physical Therapy School Based Services

Physical Therapy IEP Services that should be reported into GoClaim™ include, but are not limited to:

1. Evaluation and treatment of:
 - Range-of-motion
 - Muscle strength
 - Functional abilities
 - The use of adaptive/therapeutic equipment
2. Rehabilitation through exercise, massage, and the use of equipment through therapeutic activities

Physical Therapy Provider Qualifications

- Licensed physical therapist
- Certified physical therapist assistant under the direct supervision of a licensed physical therapist

General Service Requirements

- An Individualized Education Plan (IEP) that specifies scope, frequency, and duration that correlate with the professional recommendations
- An order/referral signed by a physician is required upon initiation of treatment and annually thereafter
- Medicaid will only reimburse for a maximum of one physical therapy evaluation and one re-evaluation per eligible student, per provider, per year. Evaluations and Re-evaluations are limited to three hours per student.
- Documentation that the current plan of care is reviewed at least once every sixty days or more frequently if the student's condition changes or alternative services are ordered is required
- Evaluations must be conducted by a registered Physical Therapist. The registered Physical Therapist must also develop and maintain the plan of care.
- An Physical Therapy Assistant may not initiate, develop, submit, or change a student's plan of care.
